

OVIS OHIO VALLEY IMAGING SOLUTIONS

Solutions should be as unique as your fingerprint!

E.CAM Variable Angle Stationary Camera

OVIS cost effective solution for a challenged economy!

OVERVIEW

The e.cam is a high performance dual detector variable angle system with flexible patient positioning for planar imaging, whole-body scans, cardiac and general SPECT studies and high throughput for every acquisition type.

The gantry, with its motion flexibility including caudal/cephalic detector tilt, offers full clinical utility for general purpose, cardiology, oncology, and neurology studies.

Please don't hesitate to call one of our sales representatives at (724)774-1400 to learn more about OVIS unique molecular imaging solutions.
